KEY STRENGTHS

- Team Collaboration
- Time Management
- Adaptability

PROJECTS

DATA BREACH MONITORING SYSTEM

Description : Developed an unauthorized login detection system in a MERN-based security project. Tracked failed attempts and sent admin alerts via email. Improved system security by logging and analyzing suspicious access.

E-COMMERCE PLATFORM USING REACT JS

Description:

Developed a responsive and user-friendly e-commerce platform using React JS, featuring product listings, category filters, product detail pages, and a dynamic shopping cart. Implemented component-based architecture, state management using useState and useEffect, and responsive design principles to enhance user experience. The platform allows users to browse products, view details, and add items to the cart for a smooth and interactive shopping experience.

PUBLICATIONS

International Journal of Advances in Engineering and Management (IJAEM)

Book Title : Behaviour Based Malware Detection

International Journal of Research Publication and Review (IJRPR)

Book Title : Paper for Phishing Detection System

INTERSHIPS

Company : RAMPeX Technology

Completed hands-on MERN Stack training focused on full stack development. Developed a personal portfolio website using React.js to showcase projects and skills learned during the training.

WORKSHOPS

OWASP CYBERSECURITY WORKSHOP

Organized by OWASP Coimbatore, The Hackers Meetup
Hosted by Kumaraguru school of Innovation.
